

HealthyYOU Vending vs. a Franchise Business Model... Why Franchise Seekers Love Us

Franchise Seekers Love HealthyYOU Vending.

Franchise seekers love what they see in the HealthyYOU Vending model. Here are eight reasons why HealthyYOU Vending is an attractive alternative.

No Ongoing Fees

Make a one-time investment with HealthyYOU Vending and you NEVER pay royalties or other ongoing fees. *The average franchise takes one third of the pre-tax profit margin of its franchisees.*

Franchise Level Support—But Without All the Strings Attached
At HealthyYOU Vending, it's your business and you set the rules, not us. We teach you best practices and then let you follow your own dream. *Our operators are true entrepreneurs, instead of just a franchisee.*

Net Worth is Not All About Money in the Bank

Many franchises would have screened out some of our most successful operators. Why? Not enough cash on hand or the right looking balance sheet. *At HealthyYOU Vending, it's about you, your passion and work ethic.*

Startup Time is Measured in Weeks, Not Months

With a franchise, it can take between four and six months before you have paying customers. With HealthyYOU Vending you are only weeks away from a fully operational business. *Our startup process is designed to expedite your business success.*

Technology-Based, Not People Based

Most of a franchise owner's time is spent recruiting, training and managing employees. With the remote monitoring of your machines, one operator can operate many machines at once. *You don't need to hire employees, unless you want them.*

Flexible Hours and Time Commitment

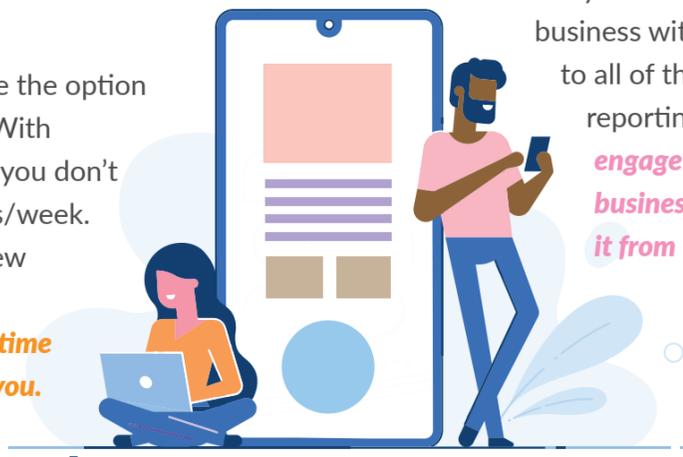

Few franchises provide the option of starting part-time. With HealthyYOU Vending, you don't have to work 60 hours/week. How you build your new business is up to you.

Work part-time or full-time—it's completely up to you.

Hands-On or Hands-Off—It Works Either Way

You can be an investor/absentee owner, or a hands-on operator. We will train you—or teach your employees how to operate the machines, while you monitor the

business with access to all of the remote reporting. *You can engage fully in the business, or manage it from a distance.*

Be Nimble, Agile and Adaptable

Franchises require a signed, multi-year lease for each location—with no option to move. *HealthyYOU Vending operators can easily move a lower performing machine into a better producing location.*

Talk directly to HealthyYOU operators about why they chose HealthyYOU over the franchises they were considering—and how their business is performing.
